New Treatments, New Recruits & The Latest Skincare Launches

Micro-needling Available!

Micro-needling is a derma-roller procedure that uses multiple tiny sterile needles to prick the skin. This triggers the deeper layer of skin to heal generating new collagen & skin tissue for smoother, firmer, more toned skin.

Micro-needling is used to treat many problematic skin conditions such as: Acne, acne scarring, skin pigmentation issues, stretch marks, brown liver/age spots & rosacea. It is also a fantastic treatment for total skin rejuvenation improving fine & deep wrinkles & plumping areas where skin volume has been lost!

What can you expect from a Micro-needling treatment?

1

MINIMAL DISCOMFORT

Numbing cream is used to ensure a comfortable treatment. A medical grade hydrating mask cools and soothes skin.

2

LONG-TERM RESULTS

You will notice an immediate improvement to the skin but optimum results are achieved after a few weeks.

3

NO DOWNTIME

Skin may be red and feel a bit like sunburn for up to 24 hours but you can resume normal activities straight away!

SAVE £80!

Buy a Micro-needling course & save! £180 single treatment, course of 3 is £460!

SAVE 20%!

Up to 20% off on Laser Hair Removal for Legs and Back! Plus an additional 20% off courses!

Ella

Veronica

Introducing Ella & Veronica, our newest Oxford Salon recruits!

Ella joined the Reception team at Cannelle Medispa in Oxford in April 2019, having always had a strong interest in beauty and wellbeing. "For me, the most important part of my job is making sure that everything is running smoothly, appointments are on time and people get the treatments that are the perfect fit for them."

Veronica joined the Oxford team this year too. An expert in LPG Lipomassage & Endermолift, she says "I am sure my 10-years of experience in the advanced aesthetics field can enhance the team."
